## What is A.B.T assessments

- A.B.T is an online benchmark Test for the subjects of Arabic, Islamic, Reading and Social studies for Arabs and Non-Arabs based on the MOE standards in the United Arab Emirates.
- The assessments for all the Grades 1 – 12.
- There are three rounds every year Sep/Oct – Feb/March – May/June.

## Why A.B.T assessments

- No two students perform the same way in MOE subjects and when a teacher has a class full of 20 students, they have to do their best to make sure all their students are learning these subjects that's being taught. Some students, of course, learn easier and faster than others.
- Teachers, therefore, need to be able to effectively differentiate their instruction so that all students have an opportunity to meet the same standards, including students with learning disabilities, as well as students who are gifted.
- If educators want to know whether or not their students are performing up to where they need be, then they need to use A.B.T Benchmark Test to make that determination.
- A.B.T Benchmark Test is the act of creating measurable standards set for assessment in which students can be measured.
- A.B.T Benchmark Test helps to keep students on track for success in the Arabic language and can ultimately raise the standards for education in a classroom.

## Our services

### A.B.T provides:

## Non-Arabs Platform

This is a professional platform for learning Arabic for non-Arabic speakers based on years of learning Arabic.

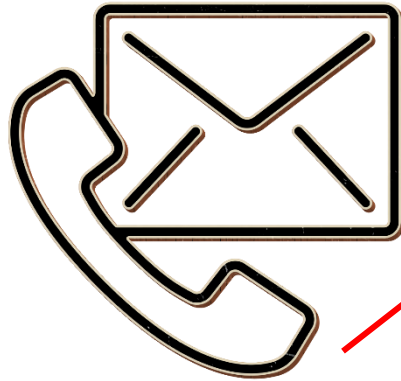

The platform contains fun and attractive interactive lessons for students, starting with learning the lesson step-by-step, then practising the language. Then there will be a short assessment to measure the progress and the student will receive a certificate, once they have passed. It will finish with an enjoyable game.
